01 / PROFILE

Engineer who puts AI into real products, close to the customer. 13 years full-stack (React, React Native, .NET, Django), and I work with Claude Code agents every day. At Sherppi I shipped AI recommendations to production; at Hostology, Tinto and Movebubble I worked directly with founders and CTOs, turning their specs into shipped features. Native Spanish and Catalan, fluent English.

03 / EXPERIENCE

Jul '26 – Present

Aldea Events · live · aldea.events

Independent Software Engineer

Events platform · Mexico · Remote

Built and run a WhatsApp-native events platform; **Claude** vision turns forwarded flyers into events. **Node.js**, SQLite, Twilio, Railway. Used by about 50 people.

Jan '26 – Jun '26

Sherppi · live · sherppi.app

Founding Engineer — equity-based

Tourism-tech · Barcelona, Spain · Remote

Took an audio-tour startup to production: **React** web app and **Django** backend with AI recommendations, geolocation-verified tours, Stripe payments, Spanish and English. Delivered with **Claude Code agents**.

Family, travel and personal development

Career break

Mexico

Time with my family and travel. Kept my skills current on personal projects, building and running my own services on Linux with Claude Code agents.

Hostology · live · hostology.co.uk

Software Engineer — Contract

SaaS event management · London, UK · Remote

- Worked directly with the CTO and founders in a lean team, building from the CEO's specs and Figma.
- Replaced a convoluted TypeScript-to-.NET **GraphQL** layer with a new **C#/.NET** one on Entity Framework Core, migrated piece by piece behind feature flags, rebuilt the guest portal on it, and wrote per-role API tests.
- Split a monolith serving five user groups into portals with a shared component library, cutting CI time 70–80%. **AWS**: replicas, environments, deployments, secrets.

Aug '20 – Aug '23

Family and health

Career break

Spain

A personal break through the pandemic, for family and health. Moved to Mexico in 2023.

Feb '20 – Jul '20

Tinto

Software Engineer — Contract

Parenting app · London, UK · Remote

The only in-house engineer at an early-stage app for mothers. Brought it in-house from an agency, moved hosting from Bluehost to **AWS** with no hard cut-over, set up CI/CD with Fastlane, and hired and mentored an intern.

2019

Just Insurance live · just.insure

Frontend Engineer — Contract

Insurtech · London, UK

React Native pay-per-mile insurance apps, with GPS tracking, crash analytics and CI/CD through App Store and Play Store releases.

Jan '18 – Nov '18

Movebubble

Software Engineer — Contract

Property-tech · London, UK

Returned as a contractor twice in 2018.

Apr '16 – Jul '17

Movebubble

Software Engineer — Full-time

Property-tech · London, UK

Backend in C#, then full stack with React and React Native. Took the Negotiator app for agents from prototype to a fully functioning cross-platform mobile app in both stores. Grew into frontend lead and cut releases to minutes with a new deployment pipeline.

PricewaterhouseCoopers

Software Developer — Full-time

Enterprise · London, UK

C# ASP.NET Web APIs for enterprise tax systems. When tax season overloaded processing, proposed and led an ESB/SOA design with EventSourcing and **RabbitMQ** to process files in parallel, improving file-processing performance.

2013 – 2014

MRW

Software Developer — Full-time

Logistics · Barcelona, Spain

Built the new version of a package-delivery management system (Spain, Portugal, Venezuela) in **C# ASP.NET MVC** with SOA, EventSourcing and CQRS, using Domain-Driven Design and TDD.

04 / WHAT THEY SAY

> "I have worked with Jordi twice — both at Movebubble and then I later hired him into the team at Hostology. Jordi has a get-things-done mentality that is a great fit in a fast-paced environment."
>
> **Mark Somerfield**, CTO, Hostology

> "In a very short time he took the Movebubble Agent App from a prototype to a fully functioning, cross-platform, mobile App — now a vital part of the business."
>
> **Tom Allen**, Technical Lead, NEVERBLAND (formerly Movebubble)

05 / EDUCATION

BSc Computer Software Engineering, UPC Barcelona School of Informatics (FIB), 2009 to 2013. Catalan and Spanish native, English fluent.
